REASONS FOR ALLOWANCE

1. Based on applicant's amendment, filed 11/27/2006, see page 19 and 20, of the remarks, with respect to amended claims 15, 17, 19, 21, 27, 29 and 33 have been fully considered and are persuasive and upon further consideration, the 35 U.S.C. 101 art rejection for claims 15, 17, 19, 21, 27, 29 and 33 and double patenting rejection for claims 1-34, is hereby withdrawn.

2. Claims 1-34 are allowable.

3. The following is an examiner's statement of reasons for allowance.

Claim 1, representing claims 7-8, 10-15, 17, 19, 21, 23-27 and 29 set forth features in particular that are not taught by the prior art, the closest prior art (European patent No. EP 0 725 529 A2) proposes a visible digital watermark method which considers the image quality, but does not describe or suggest, among other things, "luminance value calculation means for, when determines that the pixel of interest is located at the position where noise is to be multiplexed, calculating an addition luminance value to be added to the pixel of interest on the basis of a luminance value of a neighboring region near the pixel of interest, and addition means for adding the calculated addition luminance value to a luminance value of the pixel of interest".

Additionally with respect to claims 31, 32 and 33, the closest prior art does not describe or suggest, among other things, "additional information change means for, when discrimination means discriminates that the added pixel value exceeds the predetermined range, replacing the added pixel value with the pixel value of the pixel of interest, and replacing information representing that noise at a position corresponding to the additional information is to be multiplexed into information representing that noise is not multiplexed".

These key features in combination with all of the other features of the claimed invention are neither taught nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
